

Rich Oil Fields Now in Operation Near Astoria

Right at the Mouth of the Columbia River

That OIL and natural GAS have been discovered in paying quantities across the Columbia River from Astoria at Onieda, Washington, has been important enough to a number of well-known reliable parties to cause the organization of the Pacific Coast Gas & Oil Co., with a capital stock of \$300,000. This company has just placed a number of shares of stock on the market at the low price of \$50.00 per share. READ ON--

What the Company Is

The Pacific Coast Gas & Oil Co. is composed of reliable business men of Oregon and Washington whose only purpose is to develop the property to the best of its ability and produce a paying mine of oil and gas that all who have purchased stock may share in its profits. The officers serve without salary and include among them some of the most reputable citizens of the State. To make the company strong on account of its brilliant future it has secured leases on over 6000 acres of land. It has obtained the highest expert authority on the geological formation of the land, employed the strongest expert workmen to operate the drilling apparatus and given such other evidence of good faith to warrant any man making an investment with them.

Alex Sweek, president, Portland.
Clayton S. Barber, sec. and treas.
R. A. Wade, vice-president.
Directors—John Nelson, Onieda, Wash.; Geo. L. Hutchins, Portland; Wm. Anderson, Deep River, Wash.

The plant is now in constant operation. The drilling is being done under the supervision of two expert oil well operators. You can see them at work any day of the week at Onieda right opposite Astoria.

The picture opposite is a view of the derrick in actual operation.

If you have any doubt as to the stability of the company, or in the manner in which it is operating, before you make any investment visit the property any day and satisfy yourself. Oil and gas will be found in paying quantities. After the "strike" it will be too late to buy stock. Do it NOW.

Stock for Sale

For Development Pur poses

The per value of the stock is \$100 per share, but is now offered at one-half (\$50) and it is worth it. The company has already sold a limited amount of stock, equipped the property with the best working machinery in the world and it has plans for a great future. The money secured from the sale of stock will be used to prepare for the best interest of the company. As the drill goes down the stock will surely rise. The price it is now offered at will only be a short time. A good rule is to let opportunity in when it knocks at the door. For an investment there is nothing more tangible, brighter or more surer dividend paying than this stock, particularly at \$50 per share. Don't wait until it goes to par, but buy now. It is really a chance that comes seldom. Further particulars at the addresses given below.

PACIFIC COAST GAS & OIL COMPANY

402 Commercial Block, Portland, Oregon. Higgins & Warren, Savings Bank Building, Astoria, Oregon.

The Daily Market Report

PORTLAND, June 29.—The week opened with the fruit trade generally more active than at any previous time since the beginning of the season, and with the promise for fair weather from this time on the indications are for brisk business in all lines through the summer months. One local dealer said this morning: "Our sales of cantaloupes today have already been greater than for any whole day since this product began coming in, and despite the heavy receipts of the past few days the chances are that the market will still be largely relieved of the surplus. Prices are still the lowest ever known here at this time of the year—running from \$1.5 to \$1.75 a crate for the most part—but the over-supply and slow demand last week made low prices necessary. Warmer weather has stimulated the demand and it is possible that cant prices may go up slightly within the next week or 10 days."

In other lines the situation is about the same. Strawberries were about the only active fruit last week, and at the close of business Saturday the market was well loaded up with a number of lines, peaches, plums and cherries in particular. Today everything moved in response to better inquiry, but there was little change from Saturday's range of prices.

Flour, Grain and Feed.

Wheat—Track prices: Club, 85c; red Russian, 83c; bluesteam, 87c; Valley 85c.
Barley—Feed, \$24.50; rolled, \$27.50 @ \$28.50; brewing, \$26.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stop the cough and heal the lungs, and prevents serious results from a cold. Refuse substitutes. T. F. Laurin, Owl Drug Store.
